

WORKSHOP: Risk Management on Fabrication of the Welding Structure

RMWF Project: Implementation of International Guidelines for Risk Management in Welding Fabrication

AGENDA

Venue: Lecture Hall 35, C/2, University of Miskolc, Miskolc, Hungary

Date: Friday, 23 March 2018

9:30 - 10:00 **Registration of participants**

10:00 **Opening speech** (Prof. Dr. János LUKÁCS, University of Miskolc)

10:05 **Our life and the risk-based concept – Standards and training** (Prof. Dr. László TÓTH, TVE Engineering Ltd.)

10:50 **Presentation of the RMWF project: objectives, target group, activities, obtained and expected intellectual outputs** (Dr. Marcell GÁSPÁR, University of Miskolc)

11:20 **Industry requirements report** (Dipl. Eng. Erik ENGH, Quality Management Software AS)

11:50 **Lunch break** - informal discussions with the participants

12:30 **The planned course materials based on the new EWF-640-07 guideline** (Prof. Dr. János LUKÁCS, University of Miskolc)

13:15 **Roundtable and workshop for collecting feedback from the participants about the developing course materials and the planned course** (moderator: Dr. Ádám DOBOSY, University of Miskolc)

14:00 **Closing**

The RMWF project's objectives are to develop a new training course based on the adopted new EWF-640-07 guideline and to train the first groups of specialists in the field of risk management in welding fabrication. The aim of the workshop is, on one hand, to promote the project and the pilot-course, while on the other hand to raise the awareness of the relevant stakeholders about the existing need for such a training course and about the possibility this project offers.
